War Theconventional analytics of war have been typically built upon the work of Carl von Clausewitz, in particular his dictumthat war is ' a mere continuation of policy by other means ' (1832/1968, 119).For many strategists of war this dictumhas been treated principally as an expression of the necessarysubordinationof war to the political ends of sovereignty, and therefore as a practical recommendation for the political management ofits aims.

War-by-Other-Means

As the size of conventional forces declines, and a new era of great power competition places a strategic value on the efficiency with which states can pursue their aims, there is likely to be an expanded scope for partnered operations and proxy warfare. This is explicitly acknowledged in the UK's Defence Integrated Operating Concept, which outlines how British forces will
